## BlueberryNOVA Xforce Keygen

Download ->->->-> <http://bit.ly/2QMKE5O>

### About This Game

**BlueberryNOVA** will tell you story of a girl who moved to another city and entered a new college. Meet two charming girls: Yuki and Eva. Each of them is unique in its own way and reacts differently to your actions. Will you become the best friends, stay alone or get something more? It's up to you to decide.

### Features:

- A visual novel about a girl who is transferred to a new place of study.
  - Several endings that depend on your choice.
  - An opportunity to have a romantic relationship.
    - Great music from Tony Longworth.
- Several illustrations that appear in the gallery after opening in the story.

Really short story with two routes nothing really special take about not even 10mins each route. This game is not bad, but I wouldn't recommend it. Why? First, it's very short; you can finish it in under an hour. Not really that interesting to be honest, sorry. Second, the dialogues are silly and weird, maybe it's a translation issue or something? But honestly, I've seen worse than this.

\*whispers\* by the way, there is a patch for this vn.

To conclude, this is just your sweet everyday visual novel with Yuri, but it has (maybe) suicidal thoughts at one of the endings. (not being tactless or anything)

If you are depressed and have suicidal thoughts, try to talk to someone you trust and/or love. You are important to them. I'm sure they can help. Be safe everyone!. Decent art, but the translation is poor. grammar is hard and doki doki was good game so lets do that but also not. Shorter than this review.

---

Not the best story and rather short, although there are options and multiple ending. The art is also rather meh, but not the worst.

I'll say its 5/10 playable but nothing special. While this game is fairly short in length it does have some cute factors to it. The writing is fairly good although not as good as some of the other yuri visual novels. CG images are fairly good too as well. Overall this game is worth the money spent on it especially if it's gotten during one of Steam's sales.. BlueberryNOVA is a short visual novel with dialogue that accompanies anime style graphics that are very detailed, like a visual novel was meant to do.

#### Pros

\u25cf The anime style is on par with many top notch visual novels.

\u25cf Very cheap game.

\u25cf The music was usually properly placed.

#### Cons

\u25cf The visual novel is more like a short web based flash game with little story, and lackluster characters.

\u25cf A lot of spelling errors, but this IS acknowledged.

\u25cf Although uncommon for a visual novel to have any, there are no voices in the game.

\u25cf The game is very short, even if you get two endings.

\u25cf The game, while it shouldn't be free, should be only 99 cents.

#### Conclusion

The game without the DLC still deals with non consent to somewhat minor physical intimate moments, and suicide related things. I can't include that in the pro or con section as it's declared in the description. So, it's either your thing or it isn't. Overall, I didn't like or dislike the game, but I feel like the creator is talented and could have done much better.. Unfortunately I can't recommend BlueberryNOVA.

Although there are some nice aspects, like the art style of the main characters or the fact that this VN is completely yuri themed and you don't have to bother with any male protagonists that disturb your reading experience.

The story overall feels rushed and not believable (so are the main characters).

There are too often background changes after only 2 or 3 (or even less) lines of dialogue, which seems somehow inharmonious. To make it even worse, the backgrounds are very inconsistent in their art style (some of them are drawings whilst others are photographs).

The game is very short. It took me an hour to take all routes and to complete all the achievements. Also there are only 5 (!) CGs unlockable in this game.

And unfortunately there are no trade cards yet.

The only way to improve this game (mostly story wise) would be to rebuild it from scratch.. You can finish a single play through of BlueberryNOVA in about half an hour so it is on the short side. Personally I prefer a VN that you can finish in 1 sitting.

The translation is on the poor side. I suspect English is the devs second language. At the end of the game they provide a method of contact if you desire to help them with their translation.

---

Over all BlueberryNOVA is a cute VN which I didnt mind spending my time on.. If your a fan of yuri you will probably enjoy this VN. The girls are cute, the writting is pretty good, different routes you can choose as well as endings, and the art is pretty nice, it took me about 2 hours to read through all the different paths you can choose, ah yes and H scenes, install the 18+ patch for the full experince and to get your full \$3 worth. A good yuri VN well worth the asking price for sure.

Note: (Kinda spoiler but not?) That whole Doki Doki thing with one of the characters in the trailer doesn't really mean anything, so if your kinda worried about that don't be. Nothing really like that happens in this. . **DO NOT BUY THIS GAME.** Worst VN I have ever played. Inconsistent art style, they didn't even try with the backgrounds, story is cliché and cheesy and extremely fast paced, too many gramatical errors to count. The story is just bizarre, unusual, awkward, and overall not good. Horrible game.. Decent art, but the translation is poor. I really enjoyed the story and how you can choose what you want to do.

I would buy the 2nd game if there was such a thing.

**18+ patch is now available on Steam!:**

The 18+ patch is now available on Steam! (*for free*)  
This patch changes some of the dialogues and CG to more outspoken.  
<https://store.steampowered.com/app/998380/>

**And also we filled out a description of adult content:**

**Without patch:**

- *Girl x Girl relationships*
- *A girl kisses another girl without consent*
- *Thoughts about suicide*

**With patch:**

- *Girl x Girl relationships*
- *A scene where girl kisses another girl without her consent*
- *A scene where a girl get a sex act with another girl with ambiguous consent*
- *A scene where a girl get a sex act with another girl without her consent*

---

Other news: **Update 1.2.3:**

**Patch 1.2.3 includes:**

1. More English translation fixes.
2. Bug with shop scene fixed.
3. Fixed the volume of some sounds.

Thanks Ashley Bell for help with corrections in the English translation.

She will give away a few copies of the game in her [twitter](#).. **BlueberryNOVA released on Steam!:**
